S2SS Program Overview

December 2018 – 121918

Purpose

1. Provide an overview of S2SS program

   - What is it?

   - How does it work?

   - Benefit for our school?

2. Next Steps

Sandy Hook
PROMISE

Program Summary

- S2SS is launching in our schools

- S2SS teaches how to recognize and report at-risk behavior

- Students (& adults) submit tips via app, website and 24/7 crisis hotline

- All tips are triaged by certified crisis counselors and then emailed, texted and/or called back into the school / school district to act upon

- The school then investigates, assesses and intervenes (as needed) and closes the tip out to ensure all tips are reviewed and actioned

- Students and staff will be trained in person and/or via interactive video

  – Middle and high school students will be trained only

  – Adults K-12 in all school systems will be made aware of the program

- S2SS will also be embedded in student clubs and be featured in-school via awareness materials and other events to sustain the program

S2SS Overview

In a majority of violence and victimization acts, there are warning signs or signals given off
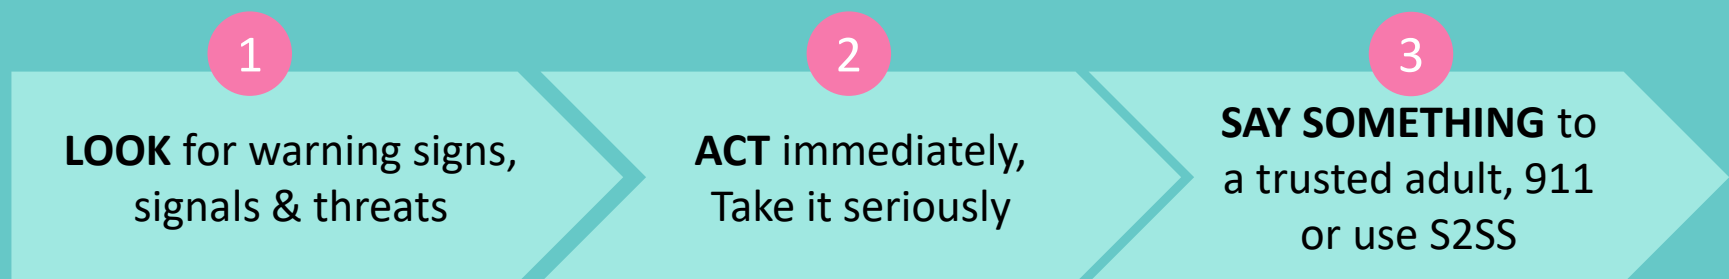

- 37% of threats of violence, bullying, etc. are sent electronically. 28% used social media

- 80% of school shooters tell someone of their violent plans. 69% tell more than one person

- Most mass shootings are planned for 6+ months

- Up to 70% of people who complete suicide tell someone their plans or give some other warning sign

- Youth display/present pathway behaviors / at-risk behaviors between the ages of 13-17

  - Creating a petri-dish or breeding ground in schools
  - Creating opportunities for early identification and intervention

However – these signs are not seen because youth (and the adults around them) do <u>NOT</u>…
- Understand or know how to recognize signs and signals

- Believe a threat to be true because "they would never say it publicly if they meant it"

- Want to be labeled, stigmatized and/or possibly physically threatened as a "snitch"

- Want to be "that kid" or "that parent" saying something

- Feel comfortable calling 911 or talking to a trusted adult

- Know who to tell or "believe that nothing will be done to help"

- Just choose to ignore the sign or signal thinking someone else will say something – bystander effect

SAFE SAY SOMETHING™

Teaches middle and high school youth (and the adults around them) how to recognize warning signs and signals, especially within social media, from individuals who may be a threat to themselves or others and *Say Something* to a trusted adult, call 911 or use the S2SS <u>anonymous reporting system</u>

1
LOOK for warning signs, signals & threats

2
ACT immediately, Take it seriously

3
SAY SOMETHING to a trusted adult, 911 or use S2SS

Investigation, assessment and/or action

Submission Disposition / Status
Written Response in S2SS and
Indication of case being "open or closed"

WHAT are the anticipated reporting rates?

- 3%-6% of population trained will submit a tip once all students are trained and receive sustained updates - the number of tips in the first 48-72 hours will be run higher then flatten out

- Approximately 40-60% will be Life Safety Tips of which 10-15% will be very serious

- Suicide, suicide ideation, depression, anxiety, substance abuse, school violence, bullying/cyber-bullying and gang violence will likely be your top tip submissions

- Hoax or false claims are less than ½ of 1% -- with most being in-actionable submissions such as "clowns have red hair"

WHO owns the data? **HOW** is Anonymity Broken?

- All tip data is owned by the school system / district with student information being protected via state and federal laws

- If a tipster is suicidal / in crisis, state and federal laws allow anonymity to be broken (if feasible) to protect the well-being and safety of the individual (occurs <1/2% of all tips)

- If an individual abuses the system or breaks a state or federal law, the school system / district can request a court order to TRY and uncover anonymity.

  Note: we will NOT break anonymity without a court order – there are no exceptions

HOW will S2SS be sustained?

- Imbed S2SS in existing school clubs or establish a new club
  - Activities, Call-to-Action, National Summit, Youth Board

- In-school collateral and materials

- Virtual or local School Outreach Coordinator to support the school and student club

- Annually train in-coming class/new educators and admin

WHAT will be overall impact and benefits?

- Educate on signs and signals – especially in social media – creating a well informed district and parents

- Reduction in violence, suicide and cutting, bullying, drug use and overall victimization with more students getting help

- Creates safer / healthier environment
